

BASE PROSPECTUS
SECOND SUPPLEMENT

4 August 2020

1 INTRODUCTION

This second supplement (the “**Second Supplement**”) to the base prospectus corresponding to the euro medium term note programme of Criteria Caixa, S.A., Sociedad Unipersonal (“**Criteria**”) drawn up according to Annex 7 and 15 of Delegated Regulation (EU) 2019/980 of 14 March 2019, and registered in the Official Register of the Spanish National Securities Market Commission (*Comisión Nacional del Mercado de Valores*, the “**CNMV**”) on 11 February 2020 and with official registry number 11066 (the “**Base Prospectus**”) as supplemented by virtue of the first supplement registered in the CNMV on 21 April 2020 and with official registry number 11066.1 (the “**First Supplement**”), constitutes a supplement pursuant to article 23 of the Regulation (EU) 2017/1129 of the European Parliament and of the Council of the European Union of 14 June 2017.

This Second Supplement must be read in conjunction with the Base Prospectus and the First Supplement.

2 PERSONS RESPONSIBLE

Mr. Xavier Moragas Freixa, acting in the name and on behalf of Criteria in his capacity as duly authorised attorney of Criteria pursuant to the resolutions of the Board of Directors of Criteria dated 14 February 2019, declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Second Supplement is, to the best of his knowledge, in accordance with the facts and contains no omission likely to affect its import.

3 AMENDMENTS TO THE BASE PROSPECTUS

3.1 Amendment of the risk factor “*Risks associated with COVID-19 pandemic*”

By means of this Second Supplement, the content of the risk factor “Risks associated with COVID-19 pandemic” included in sub-section B) (Financial risks (*Risks associated with the main financial variables*)) of the Risk Factors of the Issuer of section 2 (*Risk Factors*) of the Base Prospectus shall be deleted in its entirety and replaced by the following content:

“Macroeconomic and other risks associated with COVID-19 pandemic

Criteria is subject to the risks associated with the spread of COVID-19 pandemic across the globe that have exposed the international financial marketplace to high levels of volatility and caused them to post heavy losses during the year, making it one of the worst crashes since the 2008 financial crisis. The situation is extremely complicated due to the globalization of the marketplace and to the fact that currently there is no effective medical treatment against the virus and it is far from certain how it will impact the economy in the short, medium and long run although currently there are expectations to obtain a vaccine against the virus before the end of the year 2020.

The Bank of Spain has estimated in its macroeconomic forecast report dated 8 June 2020 that in Spain (the principal market where the investees of Criteria operate) the gross domestic product will decrease between 9% and 11.6% and the Spanish government shortfall will increase between 9.5% and 11.2% in the year 2020 in comparison with the previous year and the unemployment rate will increase up to between 18.1% and 19.6% in the year 2020.

As of the date of the second supplement of this Base Prospectus, the spread of COVID-19 pandemic is having an impact in the financial risks of Criteria.

In particular, during the first semester of 2020, in comparison with the same period of the year 2019, Criteria has suffered higher liquidity risk as a consequence of a decrease of 27% of the dividends it has received, which constitute a total consolidated amount of dividends received of €374.9 million in the first semester of 2020 and the dividends received may continue decreasing in the future. In order to mitigate such liquidity shortage and any other liquidity shortage it may face in the future, Criteria has monitored its liquidity risks more deeply and it has undertaken certain actions to mitigate them, such as managing its current indebtedness to have more flexibility and extending the 2020 maturities of its debt.

Additionally, Criteria is suffering higher market risk of its equity instruments. In particular, the market value of those instruments has declined during the first semester of 2020. As a consequence thereof, CriteriaCaixa's Gross Asset Value has declined 18.7% in the first semester of 2020 (from €21,852 million as of 31 December 2019 to €17,776 million as of 30 June 2020).

The Covid-19 pandemic is also having an impact in its investees which affect the results of Criteria. The results of the first semester of 2020 of Criteria amounted €170 million, which implies a decrease of 59% in comparison with the same period of the year 2019 (€419.2 million as of 30 June 2019) mainly due to the attributable results of its affiliates accounted by the equity method. The results of Criteria could deteriorate further as long as the effects of the Covid-19 pandemic continue in the market.

Without prejudice to the foregoing, it is not yet possible, as of the date of the publication of the second supplement to this Base Prospectus, to exactly know how far and how deep the situation might impact Criteria and its Group and whether it could also have an impact in other risks and/or other segments of Criteria or its Group. This will largely depend on the evolution and spread of the COVID-19 pandemic over the coming months and on the steps taken by market agents."

3.2 The unaudited condensed consolidated interim financial statements as of and for the six-month period ended 30 June 2020

By means of this Second Supplement, Criteria's unaudited condensed consolidated interim financial statements as of and for the six-month period ended 30 June 2020, the limited review report and the consolidated interim management's report together with their English translations are hereby incorporated by reference to the Base Prospectus.

As a consequence thereof, the following content shall be included as sub-section (viii) of section 3 of the Base Prospectus:

- "(viii) CriteriaCaixa's unaudited condensed consolidated interim financial statements prepared in accordance with the International Accounting Standard (IAS) 34 Interim Financial Reporting and the consolidated interim management's report as of and for the six-month period ended 30 June 2020, together with a limited review report (deposited in the CNMV and available, together with its corresponding English translation, on CriteriaCaixa's website https://www.criteriacaixa.com/deployedfiles/caixa_holding/Estaticos/pdf/Estados-financieros-intermedios-resumidos-consolidados-Grupo-Criteria-a-30-de-junio-2020_CAST.pdf and https://www.criteriacaixa.com/deployedfiles/caixa_holding/Estaticos/pdf/Condensed-interim-consolidated-financial-statements-Criteria-Group-30-june-2020_ENG.pdf).*

The information contained in CriteriaCaixa's website does not form part of this Second Supplement or the Base Prospectus and it has not been reviewed by the CNMV, save for the information which has been expressly incorporated by reference to the Base Prospectus."

3.3 Composition of the Board of Directors and the Committees of Criteria

By means of this Supplement, the "other relevant information announcement" (*comunicación de otra información relevante*) registered on 6 July 2020 with official registry number 3241, pursuant to which Criteria announced the new composition of its Board of Directors and its Executive Committee, is incorporated by reference to the Base Prospectus. It is available on the website of Criteria on https://www.criteriacaixa.com/pdfs/OIR%20CNMV%2006072020_CAST.pdf.

As a consequence thereof, section 5.4.1 of the Base Prospectus shall be deleted in its entirety and replaced by the following content:
